Writing

Dear Anna,

In your letter, you ask me about how do I help my parents at home. Well, I'm sometimes tidying in house, cooked food for parents and sat with my little brother. I like cook food and spend time with brother, but I very dislike tidying house!

I don't agree with such parents, who don't make their children do anything at home. Because I think children must help their parents sometimes.

Write back soon!

Lots of love,

Nastya
